INTERSECTION OF MIDDLETON RD. & ORCHARD AVE. To Be Widened and Signalized

The Nampa Highway District is starting the design process to widen and signalize the intersection of Middleton Rd. & Orchard Ave., west of Nampa.

The intersection is currently a two-lane, all-way-stop configuration, and a frequent point of traffic congestion. The project will improve flow through the intersection by installing traffic signals and additional lanes, along with curb, gutter and sidewalk.

A Public Meeting will be held early next year to receive public input and provide general information. The District is also collaborating on the design with the City of Nampa.

A construction date will be set when design work is finished, and permits and right-of-way have been obtained, typically a two to four year process. Further details can be found on the District web site at www.nampahighway1.com.
