January 15, 2019

Subject: **Middleton & Orchard Signal Project**

Dear Property Owner:

This letter is an update on the Middleton & Orchard Signal project. We originally intended to have this project built by now, but have encountered difficulties in acquiring the needed right-of-way. We are still working on obtaining the last of the needed parcels, and currently expect to start construction in early 2020.

Separately, we will be doing a pavement rehabilitation project this September on approximately one mile of Orchard Ave. from Midway Rd. to Middleton Rd. This will involve grinding up the old asphalt, and then repaving. We originally hoped to do both the rehabilitation and signal projects together, but are no longer able to due to the delay in the signal project.

You can find additional information on the signal project on our web site at [www.nampahighway1.com](http://www.nampahighway1.com). Click on "Projects" at the top of page, then "Intersection Projects", then "Middleton & Orchard Signal".

If you have any questions, please feel free to contact me at (208) 467-6576 or [eric@nampahighway1.com](mailto:eric@nampahighway1.com).

Sincerely,

ERIC R. SHANNON, P.E.

District Engineer
